WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY

International application No.  
PCT/CA2005/000465

Box No. I Basis of this opinion

1. With regard to the language, this opinion has been established on the basis of:

the international application in the language in which it was filed  
 a translation of the international application into \_\_\_\_\_, which is the language of a  
translation furnished for the purposes of international search (Rules 12.3(a) and 23.1(b)).

2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of :

a. type of material

a sequence listing  
 table(s) related to the sequence listing

b. format of material

on paper  
 in electronic form

c. time of filing/furnishing

contained in the international application as filed.  
 filed together with the international application in electronic form  
 furnished subsequently to this Authority for the purposes of search.

- 3  In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statement that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

Novelty (N)	Claims <u>1 to 14 and 17 to 19</u>	YES
	Claims <u>15 and 16</u>	NO

	Claims <u>none</u>	NO

**2. Citations and explanations :**

CA 2 463 715 (Gajewski) 05 June 2003 (05-06-2003)

Gajewski discloses a synchronous drive apparatus and a method of operating and constructing the apparatus. In Figure 1 there is shown a crankshaft sprocket with a non-circular profile having a major axis 20 and a minor axis 21. The axes are in the range 90 to 180 degree.

**NOVELTY AND INVENTIVE STEP**

Claims 1 to 14 and 17 to 19 meet the criteria set out in PCT Article 33 (2, 3) because the prior art does not teach or fairly suggest a pulley system comprising a drive assembly extending from a hub and being able to change a rim configuration from circular profile to non-circular profile and/or from non-circular to circular profile.

Claims 15 and 16 do not meet criteria set out in PCT Article 33 (2) because Gajewski discloses device comprising sprocket with a non-circular profile. In the automotive industry majority of sprockets, pulleys etc. are mountable on a driving shaft and are marked for orienting a hub in a predetermined position.

**INDUSTRIAL APPLICABILITY**

All claims meet criteria set out in PCT Article 33(4) since the device and method can be made and use in the automotive industry.

1. By means of this Form, which replaces any previously issued notification concerning submission or transmittal of priority documents, the applicant is hereby notified of the date of receipt by the International Bureau of the priority document(s) relating to all earlier application(s) whose priority is claimed. Unless otherwise indicated by the letters "NR", in the right-hand column or by an asterisk appearing next to a date of receipt, the priority document concerned was submitted or transmitted to the International Bureau in compliance with Rule 17.1(a) or (b).
2. *(If applicable)* The letters "NR" appearing in the right-hand column denote a priority document which, on the date of mailing of this Form, had not yet been received by the International Bureau under Rule 17.1(a) or (b). Where, under Rule 17.1(a), the priority document must be submitted by the applicant to the receiving Office or the International Bureau, but the applicant fails to submit the priority document within the applicable time limit under that Rule, the attention of the applicant is directed to Rule 17.1(c) which provides that no designated Office may disregard the priority claim concerned before giving the applicant an opportunity, upon entry into the national phase, to furnish the priority document within a time limit which is reasonable under the circumstances.
3. *(If applicable)* An asterisk (\*) appearing next to a date of receipt, in the right-hand column, denotes a priority document submitted or transmitted to the International Bureau but not in compliance with Rule 17.1(a) or (b) (the priority document was received after the time limit prescribed in Rule 17.1(a) or the request to prepare and transmit the priority document was submitted to the receiving Office after the applicable time limit under Rule 17.1(b)). Even though the priority document was not furnished in compliance with Rule 17.1(a) or (b), the International Bureau will nevertheless transmit a copy of the document to the designated Offices, for their consideration. In case such a copy is not accepted by the designated Office as the priority document, Rule 17.1(c) provides that no designated Office may disregard the priority claim concerned before giving the applicant an opportunity, upon entry into the national phase, to furnish the priority document within a time limit which is reasonable under the circumstances.
